### Other classes:

"17. Erhvervsudygtighedsforsikring" - the business in this class are of a similar nature to life insurance business, and must therefore be allocated to the life insurance module

"27. Øvrig ikke-proportional indirekte skadesforsikring" - must be placed in QIS 4 group 13, 14 or 15 according to the "substance over form" principle. For instance motor liability must be placed under casualty, while other motor business belongs in group 13 (property)

"28. Indirekte livsforsikring" - according to the "substance over form" principle, this class must be treated in the life insurance module
