Any such derogation shall be disclosed in the notes for each year, giving specific and adequate grounds and indicating the effect, including, if possible, the effect in terms of amounts, of the derogation on the assets and liabilities, financial position and the results of the undertaking and the group respectively.

187.-(1) In order for the financial statements and consolidated financial statements to give a true and fair presentation, and for the management review to contain a true and fair report, cf. section 186, the requirements of subsections (2) and (3) shall be complied with.

(3) The provisions in subsection (1), nos. 6-9, and subsection (2) may be derogated from in special cases. In such cases, section 186(3), 2nd clause shall apply correspondingly.

(2) The fair value shall be determined as the market value of the relevant asset or liability on a well-functioning market. (4) Expenses that, under tax legislation, rest upon the estate under administration consisting of the insured parties, shall be paid by the estate under administration through the administrator.

(5) Remuneration to administrators and other expenses in connection with the administration shall be paid by the estate under administration. The size of the remuneration shall be fixed after negotiations with the Danish FSA.

(6) The estate under administration shall be subject to supervision by the Danish FSA.

254.-(1) At the beginning of the administration, the registered assets mentioned in section 167(1) shall be transferred immediately to the estate under administration. The estate under administration represented by the administrator shall be entitled to have full charge of said assets. With regard to investment securities, this shall be registered at a central securities depository and, with regard to real estate, in the Land Register.

(2) If a life-assurance company is declared bankrupt, the bankruptcy court shall immediately transfer the assets mentioned in subsection (1) to the administrator.

(3) The administrator shall have the registered assets valued in accordance with the current regulations regarding measurement.

(4) The individual insured parties may not make claims against the company. On the other hand, the administrator may, on behalf of the estate under administration, request from the company the amount remaining according to the valuation of the assets taken over, cf. subsection (3), in order to cover the insurance provisions and claims reported and claims due according to the calculation mentioned in section 256. In addition, the administrator may, on behalf of the estate under administration, request an amount corresponding to the company's capital requirement calculated at the commencement of the estate under administration.

(5) If a life-assurance company is declared bankrupt after the commencement of the administration, said bankruptcy shall have no effect for the estate under administration.

(2) Insurance claims that were due or reported before the commencement of the administration shall be determined according to the regulations in force before that date. Insurance contracts that fall due at a later time shall, in the first instance, only be paid by an amount that the administrator deems appropriate under the circumstances. If the final determination of the insurance amounts, cf. subsection (4), shows that, in this way, too much has been paid, repayment shall not be possible.

(3) The insurance provisions shall be calculated using the calculation basis reported for the company, cf. section 20, unless the administrator deems it necessary to determine another calculation basis, which shall then be reported to the Danish FSA.

(4) The determination of the insurance amounts, including any reduction, cf. section 257(1), 4th clause or 259(1), 1st clause, shall be carried out in accordance with the calculation basis under subsection (3) and after a distribution of the company's assets that is deemed fair in the individual case in consideration of the conditions in the portfolio of insurance contracts, including the content of the insurance contracts.

257.-(1) The administrator shall, as soon as possible after the assessment and calculation under section 254(3) and 256 has taken place, attempt to transfer the entire portfolio of insurance contracts to one or more insurance companies. If an offer of such transfer is received, the administrator shall submit an application to the Minister for Economic and Business Affairs regarding said transfer. The application regarding transfer shall be accompanied by the composition agreed upon by the estate under administration and the company taking over, and by any information regarding said company that the Minister for Economic and Business Affairs deems necessary to be able to assess whether the transfer is appropriate in the interests of the policyholders. If such composition results in a reduction in the insurance amounts or a change in the policy terms, including the bonus provision, this shall be indicated.

(2) Unless the Minister for Economic and Business Affairs, on the existing basis, finds that a license for transfer should be denied, the Danish FSA shall make public in the Danish Official Gazette and in daily newspapers a report regarding the planned transfer. The report shall include an appeal to the policyholders to notify the Danish FSA in writing if they have any objections to the transfer within a time limit stipulated by the Danish FSA which is no shorter than one month. The company shall, at the same time, forward the report and draft to those policyholders whose address is known to said company.

(3) After expiry of the time limit mentioned in subsection (2), the Minister for Economic and Business Affairs shall, under consideration of the objections made, decide whether the portfolio of insurance contracts may be transferred in accordance with the proposal made. The transfer cannot be cited as a basis for cancelling the insurance contract.

(4) If the transfer has taken place in such a way that not all the assets of the estate under administration have been included, the administrator shall surrender the excess amount to the company or its estate.

258.-(1) If the portfolio of insurance contracts cannot be transferred in accordance with section 257, the administrator shall carry out the final determination of the insurance amounts in accordance with the calculations made as well as any changes in the policy terms including bonus provisions, and the administrator shall also convene a general meeting of the policyholders in order to establish a mutual company formed by the estate under administration, cf. section 23 and section 3 of the Public Companies Act.
